**Exam : MS-201**

**Title : Implementing a Hybrid and  
Secure Messaging Platform  
Exam**

**Version : DEMO**

### 1.HOTSPOT

You have a Microsoft Exchange Server 2019 hybrid deployment.

From Exchange Management Shell on an on-premises Exchange server, you receive the output shown in the following exhibit.

```
[PS] C:\Windows\system32> Get-OrganizationRelationship | +1

DomainNames           : {litware.mail.onmicrosoft.com}
FreeBusyAccessEnabled : True
FreeBusyAccessLevel   : LimitedDetails
FreeBusyAccessScope   : litware.com/Groups/Group1
MailboxMoveEnabled    : True
MailboxMoveDirection  : None
DeliveryReportEnabled : True
MailTipsAccessEnabled : True
MailTipsAccessLevel   : All
MailTipsAccessScope   :
PhotosEnabled         : True
TargetApplicationUri   : outlook.com
TargetSharingEpr      :
TargetOwaURL          : http://outlook.com/OWA/litware.com
TargetAutodiscoverEpr : https://autodiscover-s.outlook.com/
                      autodiscover/autodiscover.svc/WSecurity
OrganizationContact   :
Enabled               : True
ArchiveAccessEnabled  : True
```

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic. NOTE: Each correct selection is worth one point.

Exchange Online mailbox users can view the free/busy information for **[answer choice]**.

|  |   |
|--|---|
|  | <input type="text" value=""/>   |
|  | <ul style="list-style-type: none"> <li>all on-premises mailboxes</li> <li>only on-premises mailboxes whose owners are members of Group1</li> <li>only on-premises mailboxes whose owners are NOT members of Group1</li> </ul> |

Exchange Online mailbox users **[answer choice]** for on-premises mailboxes.

|  |   |
|--|---|
|  | <input type="text" value=""/>   |
|  | <ul style="list-style-type: none"> <li>cannot view free/busy information</li> <li>can view free/busy information with time only</li> <li>can view free/busy information with time, subject, and location</li> </ul> |

**Answer:**

Exchange Online mailbox users can view the free/busy information for [answer choice].

|   |
|---|
| all on-premises mailboxes   |
| only on-premises mailboxes whose owners are members of Group1     |
| only on-premises mailboxes whose owners are NOT members of Group1 |

Exchange Online mailbox users [answer choice] for on-premises mailboxes.

|   |
|---|
| cannot view free/busy information                               |
| can view free/busy information with time only                   |
| can view free/busy information with time, subject, and location |

**2.HOTSPOT**

You have a Microsoft Exchange Server 2019 hybrid deployment.

You are migrating mailboxes from the on-premises organization to Exchange Online. From the Exchange admin center, you create a new migration batch that includes 25 mailboxes, and then select Manual Complete the batch. Later, you must complete the migration of a mailbox named user1@litware.com in the batch as soon as possible. You discover that the status of the migration batch is Syncing, but the status of the move request for user1@litware.com is Synced. You need to complete the migration of the user1@litware.com mailbox to Exchange Online as soon as possible.

How should you complete the command? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer Area**

|  |                 |                    |                     |                               |   |                           |                                     |                             |

Resume-Moverrequest -Identity 'user1@litware.com'

**Explanation:**

References:

<https://docs.microsoft.com/en-us/powershell/module/exchange/move-and-migration/set-moverequest?view=exchange-ps>

3.You have a Microsoft Exchange Server 2019 organization.

You purchase an Exchange Online subscription.

You plan to implement an Exchange hybrid deployment that supports the following features:

- Federated sharing of free/busy information
- Single-sign on (SSO) access to both on-premises and Exchange Online mailboxes.
- Secured access to mailboxes by using Microsoft Azure Active Directory (Azure AD) conditional access policies.
- A unified global address list (GAL) that contains all the mailboxes in the on-premises and Exchange Online organizations.

You plan to run the Microsoft Office 365 Hybrid Configuration wizard.

You are evaluating whether to use Exchange Classic Hybrid or Exchange Modern Hybrid.

Which requirement can only be met by using the Exchange Modern Hybrid connection option?

- A. the federated sharing of free/busy information between organizations
- B. SSO access to both on-premises and Exchange Online mailboxes
- C. a unified GAL list that contains all the mailboxes in the on-premises and Exchange Online organizations
- D. secured access to mailboxes by using Azure AD conditional access policies.

**Answer:** A

**Explanation:**

References: <https://docs.microsoft.com/en-us/exchange/hybrid-deployment/hybrid-agent>

4.DRAG DROP

You have a Microsoft Exchange Server 2019 hybrid deployment that contains the users shown in the following table.

| Name  | Mailbox location     |
|-------|----------------------|
| User1 | Exchange Online      |
| User2 | Exchange on-premises |

You need to provide each user with an archive mailbox that is stored in Exchange Online.

Which admin center should you use to perform the configuration for each user? To answer, drag the appropriate admin centers to the correct users. Each admin center may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content. NOTE: Each correct selection is worth one point.

### Admin Centers

The Exchange admin center from an on-premises server

The Exchange admin center from Exchange Online

The Microsoft 265 admin center

The Compliance admin center

**Answer:**

### Admin Centers

The Exchange admin center from an on-premises server

The Exchange admin center from Exchange Online

The Microsoft 265 admin center

The Compliance admin center

### Answer Area

User1:

Admin Center

User2:

Admin Center

### Answer Area

User1:

The Compliance admin center

User2:

The Exchange admin center from an on-premises server

### Explanation:

References: <https://docs.microsoft.com/en-us/office365/securitycompliance/enable-archive-mailboxes>  
<https://docs.microsoft.com/en-us/exchange/hybrid-deployment/create-cloud-based-archive>

### 5.HOTSPOT

You have a Microsoft Exchange Server 2019 organization that contains the Mailbox servers shown in the following table.

| Name | Member of | Database |
|------|-----------|----------|
| EX1  | Site1     | Mail1    |
| EX2  | Site2     | Mail2    |
| EX3  | Site3     | Mail3    |

The organization contains the mailboxes shown in the following table.

| Name  | Database |
|-------|----------|
| User1 | Mail1    |
| User2 | Mail2    |
| User3 | Mail3    |

You create the public folder mailboxes shown in the following table.

| Mailbox | Database | Hierarchy |
|---------|----------|-----------|
| PF1     | Mail1    | Primary   |
| PF2     | Mail2    | Secondary |
| PF3     | Mail3    | Secondary |

You set the DefaultPublicFolderMailboxproperty of each user mailbox to the public folder mailbox closest to the user. For each of the following statements, select Yes if the statement is true. Otherwise, select No. NOTE: Each correct selection is worth one point.

| Statements  | Yes                   | No                    |
|---|-----------------------|-----------------------|
| If User3 creates a public folder, the folder hierarchy will be updated first on EX3.  | <input type="radio"/> | <input type="radio"/> |
| When User2 views the folder hierarchy, the user will use EX2.   | <input type="radio"/> | <input type="radio"/> |
| If User3 accesses a public folder from PF1, and then EX1 goes offline. User3 can still access the content in the public folder. | <input type="radio"/> | <input type="radio"/> |

Answer:

| Statements  | Yes                              | No                               |
|---|----------------------------------|----------------------------------|
| If User3 creates a public folder, the folder hierarchy will be updated first on EX3.  | <input type="radio"/>            | <input checked="" type="radio"/> |
| When User2 views the folder hierarchy, the user will use EX2.   | <input checked="" type="radio"/> | <input type="radio"/>            |
| If User3 accesses a public folder from PF1, and then EX1 goes offline. User3 can still access the content in the public folder. | <input checked="" type="radio"/> | <input type="radio"/>            |
