**Exam : NCP**

**Title : Nutanix Certified  
Professional - Multicloud  
Infrastructure (NCP-MCI)**

**Version : DEMO**

1.An administrator needs to run a mixed Exchange and SQL workload with a guaranteed amount of container space for each application.

How should the administrator meet this requirement?

- A. Create one container and set capacity reservation
- B. Create two containers and reserve space for containers
- C. Create one container and enable compression
- D. Create two containers and reserve space for vDisks

**Answer: D**

2.A configuration is single domain, single forest, and does not use SSL.

Which port number should be used to configure LDAP?

- A. 389
- B. 3269
- C. 636
- D. 3268

**Answer: A**

**Explanation:**

4.A customer wants to isolate a group of VMs within their Nutanix environment for security reasons. The customer creates a VM with two NICs to act as a firewall and installs the appropriate software and certificates. However, no one from the outside can access the application.

What is the likely cause of this problem?

- A. A shared volume group must be used by all isolated VMs
- B. More than one NIC cannot be added to a VM
- C. One of the NICs needs to be configured on the internal VLAN
- D. Wireshark is installed on the NAT VM

**Answer: C**

5.In Files, how many FSVMs are deployed by default?

- A. 1
- B. 2
- C. 3

D. 5

**Answer: C**
