Request all media in the sequence for catalog operations

Use storage-based catalogs

Truncate catalogs after

Catalog path

Catalog path

**i** It is recommended that you use Backup Exec Utility to change the catalog location. If you change the location using the Catalog path field, you must also manually copy the existing catalogs to the new location and then restart the Backup Exec services. Click here for more information: [https://www.veritas.com/support/en\\_US/article.TECH210578](https://www.veritas.com/support/en_US/article.TECH210578)
